

A Field Guide to the Eremophilas of Western Australia

Beautifully produced with some superb photography: three photos for each plant

Topics include:

- Discovery
- Distribution and habitat
- Plant features
- Traditional use
- Naming
- Distribution map for each species
- Glossary
- Specific and common name index

Understanding the Scenery: Morton Bay National Park and the Coast from Nowra to Batemans Bay

The title says it all. This book explains how landmarks of this area were formed. These are places you can go and see for yourself. A good book to have in the car as you travel in the area.

There is a place name index and a general index

May Gibbs: More than a Fairytale: An Artistic Life

Another superbly produced book about May Gibbs' family and early life. It includes many of her works. There are a number of portraits and watercolours unconnected with her children's stories. Of course there are also many pictures of the Gumnut Babies etc. Indexed.
