

## **Let's Propagate!**

**A plant propagation manual for Australia**

Angus Stewart

- Clear maps with numbered districts. These are referred to for every plant. Excellent new edition
- Largely Australian plants
- All methods of propagation
- Stock plant management (for large scale propagation)
- Includes an appendix on smoke germination
- And appendix on plant type, propagation method and time of year

## **Wildflowers of Southern Western Australia**

Margaret G. Corrick, Bruce A. Fuhrer

- Another book on WA wildflowers
- If I could only take one field guide this is it
- Good introduction by Alex George describing the types of country in WA and the plants therein
- Clear maps with numbered districts. These are referred to for every plant.
- Good photographs.
- Well indexed.

## **Gippsland Red Gum Grassy Woodland and Associated Native Grassland**

Australian Government – DEWH&A

- Another one for travellers. Gippsland is a favourite destination for many people
- A Policy Statement related to a conservation Act of 1999
- Clearly arranged
- Photos of flora and fauna species
- Discussion and photos on exotic species
- Includes Indigenous heritage
