

Grafting and Budding for Australian Gardeners

Allen Gilbert
Hyland House Publishing Pty Ltd (2016)

Allen Gilbert has been one of the 'gardening greats' of Australian radio and talkback shows for 40 years or so and has written a number of books on gardening. This 'how to' book covers all aspects of grafting and budding and is accompanied by many photos and clear diagrams. It has a glossary and index.

The Nature of Plants ***An Introduction to How Plants Work***

Craig N. Huegel
University Press of Florida (2019)

Written by a botany academic who is also a gardener who appreciates the beauty and intricacies of plants and able to demystify how they function. Easy reading and illustrated with many photos and some diagrams.

Treasures of Botanical Art

Shirley Sherwood and Martyn Rix
Kew Publishing, Royal Botanic Gardens Kew (Revised edition 2019)

An exquisite collection of art from the Shirley Sherwood Gallery at Kew and from Sherwood's personal collection. It is interesting to compare botanical art from the 15th to the 21st century. Includes biographies of all artists featured.

Guide to the Wildflowers of Western Australia

Simon Nevill
Woodslane Press Pty Ltd (Revised edition 2019)

Contains an introduction to wildflowers, where to find them, and the three major botanic provinces. Excellent photos, mudmaps and separate indexes for scientific and common names.
