4.1	Membership fees and benefits	David More referred to the paper on Google drive. Various members expressed thanks to the team for all the work put into developing the paper. Linda Beveridge said some organisations she knew had moved back		Noted

		<p>from rolling memberships to a fixed system. Council generally felt that the types of membership should be as simple as possible, that the current system was overly generous towards Households and that an increase in fees was reasonable. David will do further work on the categories and fees. He stressed the need for flexibility since each software trial to date has thrown up a slightly different mix of possibilities and constraints.</p> <p>ACTION: The IT and Membership Team to prepare a further report for consideration at the next Council meeting.</p>		
4.2	Communications Strategy	<p>Kerry Moir referred to the paper on Google drive summarising the key findings from the questionnaire given to new Members at the March <i>Meet and Greet</i>. Of the 85% of members who responded, 71% provided personal information and some indicated a willingness to assist with tasks such as IT and the Website. Many wished to join Special Interest Groups (SIGs). Feedback had been passed to the relevant groups. There was discussion about the merits of doing surveys, how the information gathered from the questionnaire and a wider survey could be handled, and the possible impact of increased interest on the SIGs.</p> <p>RESOLUTION: That Council send an email to all new members responding to queries and interests identified through the questionnaire, ie providing information about how to join the SIGs and a link to information on the ANBG website about its volunteer programs.</p> <p>RESOLUTION: That Council suggest to the Growing Friends, the Photographic Group, and the Botanic Art Groups that they consider holding a come and try, or similar, session for new members.</p> <p>ACTION: That the Communications Working Group develop an implementation plan for a further survey of Friends.</p>	<p>M: Kerry Moir S: David More</p> <p>M: Kerry Moir S: David More</p>	<p>Passed</p> <p>Passed</p>

5.3	ANBG Friends Liaison	<p>Megan Menz reported that:</p> <ul style="list-style-type: none"> ● there were 42,823 visitors to the Gardens in March with 7,523 entering the Visitor Centre – on par with the five year average ● events happening across April and early May include: <ul style="list-style-type: none"> ▪ storytime on the first Friday of every month ▪ as part of the Canberra & Region Heritage Festival, Indigenous Plant Use Walks will be held for the next three consecutive Wednesdays ▪ the Gardens will come alive with the sound of music with 'Tree of Life' as part of the Canberra International Music Festival on Friday 29 April 		Noted

		<ul style="list-style-type: none"> ▪ a range of kid's events, Flora Explorer tours and an outdoor exhibition will be held as part of Canberra Tree Week from 30 April- 8 May ● the exhibition on now until 8 May in the Visitor Centre is '<i>Growing in the Gardens</i>' by members of the Friends of the ANBG Botanic Art Group ● schools are slowly returning with 17 schools visiting in March, bringing 801 students to visit the Gardens which is 37% lower than the March 5 year average. Excursions are still being discouraged by public education departments, including NSW and ACT, as a result all groups visiting are independent schools or non-school groups like guides or universities. The majority – 681 students - were from interstate, 120 were from local schools. April has lower school bookings due to Easter and school holidays; we are currently expecting 336 students to visit next month ● as at the end of March, the ANBG has 17,982 Facebook followers with a post reach for March of 107.2K, 2,880 Instagram followers, and 4,210 Twitter followers. 		
5.4	President's Report	Neville Page said his activities were outlined in his report on Google drive. A member had also asked if we could publicise the issue of Blewitt's Block – an unspoilt grassy woodland area threatened by urban development. Since this was compatible with the Friends' objectives, it was agreed that Neville would write a piece for the next e-bulletin.		Noted

5.6	IT Report	David More said he was looking at redeveloping the website and the membership database into one system. Technical support was the critical issue and he was still trying to identify candidates. Neville Page said he had contacted the Secretary of the Friends of the Arboretum and they were currently looking at reviewing their website and membership database. David will contact the Arboretum. David said he needs to work out the structure of our project and then translate it into an action plan. Neville suggested getting a working group together once David was ready to move ahead.		Noted

In relation to Public Fund projects:</p> <ul style="list-style-type: none"> ● other funding had been found for the <i>on-line education resource</i> project this year so the \$50,000 would be needed next year instead ● funding for the <i>How do I survive in the Red Centre</i> project (\$10,000) would be needed in 2022/23, not this financial year ● the <i>Seed Production Area</i> (s189c) project will not be progressing so another project will be put forward. <p>Judy West will report at the next meeting about the annual research scholarship (funded by both Council and the Public Fund).</p>		Noted
