LIBRARY CONNECT

Supporting the ANBG's vision to inspire, inform and connect people to the Australian flora.

February 2022.

Hi all,

This month's Library Connect has the usual listing of new books and a bit of info about an updated service the library's offering. If you would like to know more about our Current Awareness service or to borrow any of the new books, please [contact the library](#).

The library is staffed Mon, Wed & Fri 9.30-4.30, but there are still restrictions on numbers and, as the COVID situation is always evolving, please call or email before visiting. And don't forget your mask! I'm usually working from home on Tuesdays & Thursdays so can be contacted by email or Teams if you need assistance.

The "click and collect" boxes in the Visitor Centre are still available if you would like to return items, and I'm very happy to leave items there for collection if that's easier than visiting the library.

Thank you,
Alex

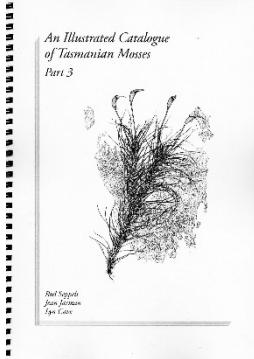

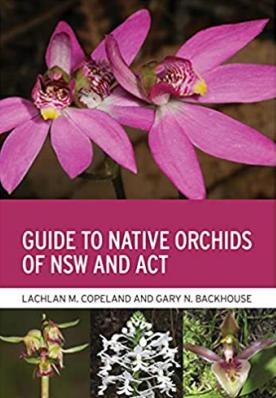

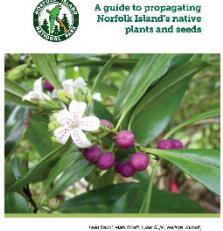

Current Awareness Services

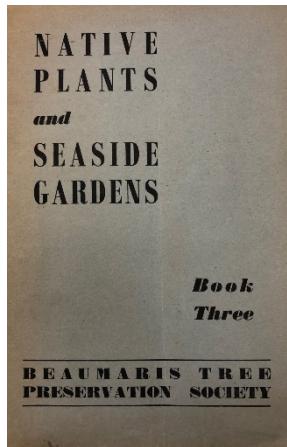

The library can help keep you up to date with the latest research and developments in your area/s of interest.

I can set up database alerts on a particular subject or send you recent articles that you may not come across in reading your core specialty journals.

Just [send me an email](#) or give me a call if you would like to subscribe or know more about the service.

New books

	<p>An illustrated catalogue of Tasmanian mosses : Part 3 / R.D. Seppelt, S.J. Jarman, L.H. Cave.</p> <p>Hobart : Tasmanian Herbarium, 2021 ISBN: 9781921599927</p> <p><i>Continues on from Parts 1 and 2 with a further 75 drawings of Tasmanian moss species.</i></p> <p>Shelf no. 588.209946 SEP Pt 3</p>
	<p>Guide to native orchids of NSW and ACT / Lachlan M. Copeland and Gary N. Backhouse.</p> <p>Clayton South, VIC : CSIRO Publishing, 2022 ISBN: 9781486313686</p> <p><i>This comprehensive guide describes the 582 species of wild orchids that occur in NSW and the ACT. This region covers the richest area for wild orchids in Australia and includes over 500 species of seasonal ground orchids and 62 species of evergreen tree and rock orchids.</i></p> <p>Shelf no. 584.72099447 COP</p>
	<p>A guide to propagating Norfolk Island's native plants and seeds / Leah Dann, Mark Scott, Lydia Guja, Melinda Wilson, Nigel Greenup and Salit Kark.</p> <p>University of Queensland, Brisbane : National Environmental Science Program Threatened Species Recovery Hub, 2021</p> <p><i>The handbook covers an important selection of native species found on Norfolk Island. Most of the species selected are endemic and EPBC listed, as these species are unique to the island and are in the most need of propagation to increase populations.</i></p> <p>Shelf no. 631.539482 DAN</p>

Shelf no. 582.1609947 FIE

First know the nature of things : celebrating the life and work of Denis John Carr (1915-2008). Botanist, Scholar. Mentor. / compiled and edited by Brian Gunning, Roland Jahnke, Marion Manifold, Bruce Wellington.

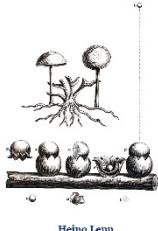

Canberra, A.C.T. : Phytoglyph Press, 2021

ISBN: 9780646840642

This book is a memorial and tribute to Professor Denis John Carr (1915-2008), eminent botanist, scholar, mentor and, in the opinion of some of those who knew him best, all-round genius.

Shelf no. 580.92 CAR

*Snippets
of
mycological history*

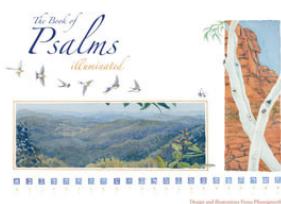

Heino Lepp
2021

Snippets of mycological history / Heino Lepp.

[Canberra, ACT] ; Heino Lepp, 2021

"The word 'Snippets' is apt, for this is not a detailed history of mycology but simply a presentation of a few topics that interest me and I will explain the very limited aims in my Introduction. The standard English-language work is G.C. Ainsworth's 'Introduction to the history of mycology', published in 1976. Since then more information has become available (and shown that some of his observations need modification) and information has become easier to obtain. I give more detail about some topics treated by Ainsworth and include a few that are not in his work. I include numerous colour illustrations, something that would have been very expensive to do in print in 1976. I stress again that these 'Snippets' deal with an idiosyncratic selection of topics. For more, read Ainsworth! It's still well worth it."

Shelf no. 579.5 LEP

The book of psalms : illuminated / design and illustrations by Fiona Pfennigwerth.

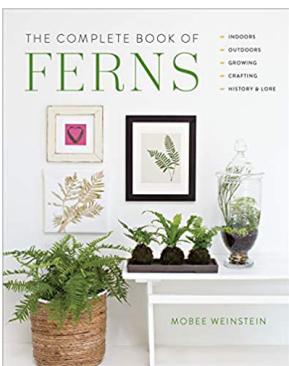

[Kotara South, New South Wales] : Fiona Pfennigwerth, [2020]

ISBN: 9780646825236

This book is a window inviting you to see the psalms afresh and sing them today: poets' images transplanted into Australian soil, and their poetry celebrated in the patterns of the text. [Back cover]

Many of these artworks are botanical illustrations of Australian flora, some sketched in the Gardens, the Botanic Gardens in Hall's Gap and Darwin, the Desert Park in Alice Springs, and in their natural habitats. [ANBG Visitor Centre exhibition notes]

Shelf no. 758.1 PFE
